REPORT OF BRADFORD FIRE DEPARTMENT

January, 31, 1937

Chief	D. C. Nutter
Asst. Chief	H. G. Cummings
Clerk	N. Ellsworth Brown
Treasurer	Lester Hall

During the year ending Jan. 31, 1937, the fire department had twenty calls, sixteen chimney, one brush, one building, and two out of town. There being no property loss in town.

For a number of years the fire house has been in need of a new heating unit. The old method of heating with a single oil burner was inadequate. The temperature in the station on severe cold nights went below freezing inside the firehouse and on one occasion caused considerable damage to the apparatus.

With the cooperation of the selectmen the situation was looked into and early in the winter of 1936 a furnace was installed which keeps the temperature well above freezing for which the officers and members are very grateful.

We wish to thank the townspeople and selectmen for their interest and cooperation during 1936.

Respectfully submitted,

N. ELLSWORTH BROWN,

Clerk..

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Bradford District:

During the year 1935-36 the teachers employed in the district were as follows: Doris B. Williams, K. U. A. '22 at the Center school; Martha W. Cilley, K. N. S. S. S. at the Village Primary; L. Russell Heath, K. N. S. '33 at the Grammar school. Mrs. Helen Nye assisted in the Primary school during a part of the year. Mrs. Ruth B. Chase was music supervisor.

Although there was a slight increase in the per cent of attendance it is still below the average for the state, but that for the Grammar school is very good. The number of tardinesses has increased nearly one third. This increase was entirely in the village schools. The number at the Center is three less than the previous year.

The total number of pupils attending the schools of the district was 87 of whom 7 were non-resident. There were three high school pupils in the district attending school at Concord; five at Henniker, and twelve at Warner. The number of pupils residing in the district and attending public schools was therefore 100.

The reports of the Medical examiner, Dr. R. F. Oliver, and the school nurse, Mrs. R. S. Moore, R. N.,

show that 84 pupils were examined during the year of whom six had defective vision, five impaired hearing, eleven defective teeth, and ten diseased tonsils. A dental clinic was held in June at which many of the pupils having defective teeth were treated.

At the school district meeting last March it seemed that a majority of the citizens favored at least an investigation of the possibility of building a new school house. Undoubtedly most of the people in the district realize the need of a new building and adequate playground. The question in the minds of many seemed to be whether the district could afford it, but should we not ask ourselves whether we can afford to go on with the old building. Can parents afford impairment of their children's eyesight, inadequate ventilation, lack of playground facilities and the danger from passing automobiles when pupils are playing ball on the present school grounds? To date we have had no accident, but the danger is ever present that some child in pursuit of a ball may run thoughtlessly into the path of a rapidly moving automobile.

It is impossible to alter satisfactorily the old building and annex an adequate piece of playground for less than the cost of a new building. We hope that every voter in the district will give careful consideration to both sides of the question before taking a decided position.

If a vote for a new building is not obtained there is need of considerable minor repairs both at the Village and the Center Schools. A few sets of textbooks and reference books are also needed.

In conclusion we wish to state our appreciation of the cooperation and support of the board, teachers, and parents in our endeavors to forward the educational interests of the district.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.
